

THE BIOAGORA PROJECT

BioAgora is a European collaborative project funded by the EU Horizon Europe programme. It will build the Science Service for Biodiversity, the scientific pillar of the EU Knowledge Centre for Biodiversity. BioAgora orchestrates a targeted dialogue between scientists and other knowledge holders with policy actors in the biodiversity policy arena.

PROJECT PARTNERS

BioAgora consists of a Consortium of 22 partners, from 13 European countries, led by the Finnish Environment Institute (Syke). The partners represent a diversity of actors from academia, public authorities, SMEs, and associations. They contribute with specific skills to reach the project's objectives.
